# Writefull for Word

Merging trusted, high-quality language feedback with an expanded suite of writing features*, the new Writefull for Word is more powerful than ever.
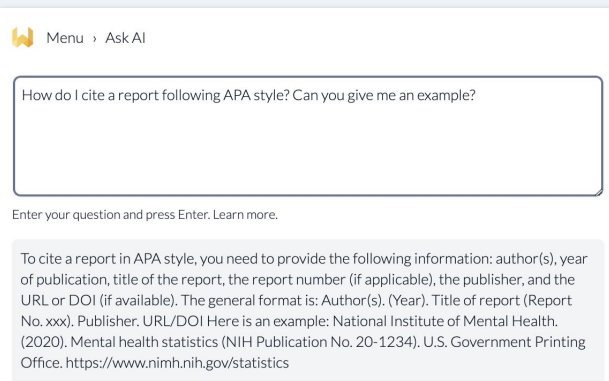

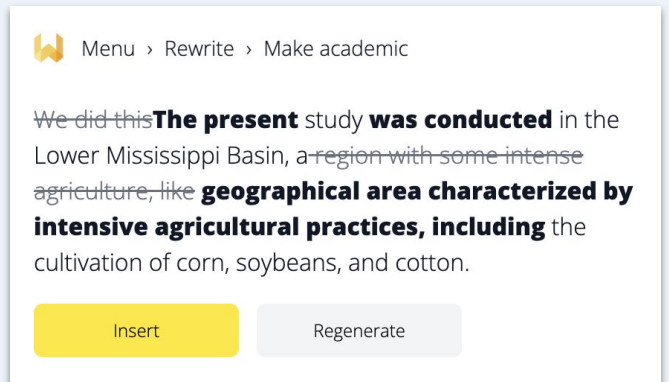

Write and copy edit with ease

Features: Check paragraph | Check document

Writefull's signature language feedback, tailored to academic writing, is now even more accessible through an improved interface. Edits can be accepted individually or by sentence, blocked for future occurrence, and viewed with or without Track Changes.

Boost writing style and clarity

Features: Make punchy/academic/concise | Paraphrase | Split/Join/Shorten sentences

Going beyond language revision, these features instantly make selected passages more punchy, academic, or concise, or split, join, or shorten sentences. Paired with an enhanced Paraphraser!
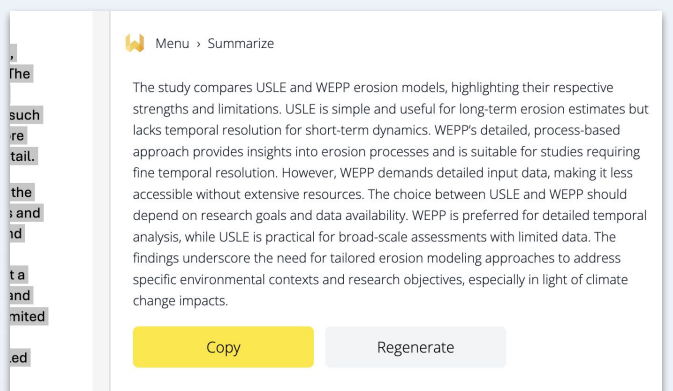

Get academic questions answered

Feature: Ask AI

Ask AI uses GPT to answer questions. Unlike ChatGPT, it is specifically designed to address questions in an academic context, giving reliable answers tailored to the needs of students and researchers.

Present key concepts effectively

Features: Explain | Summarize | Title/Abstract Generator

Crafting abstracts, conference posters, or cover letters just got easier! These features quickly summarize or explain key findings, or generate an abstract or title based on selected text.

*Individual AI features can be deactivated upon request.
